The International Seminar is a School of Excellence, in which quality of design will become an expression of the awareness to combine global issues with local identity and with history. The International Seminar, now in its 14th edition, combines different cultural experiences and methodologies in the field of settlements transformations, in the relationships between existing and developing ones, in the functional and architectural reorganization of landscape. In the previous editions the Seminar has enjoyed the presence of North and South American (Washington, Santiago, Salvador Bahia), European (Roma, Catania, Madrid, Stockholm, Oslo, Lodz, Athens) African (Tunis), Middle Eastern (Al Ain, Dubai, Sharjah), and Asian Universities (Shanghai). The 12th session was held in Al Ain (United Arab Emirates), the 13th in Lucca, Italy, the 14th will be held in Lodz (Poland).
